West Hartford, CT 06110-1913

This letter is sent by e-mail only

Dear Jack Cunningham,

Having received our rebate check from Eversource Energy, I am prompted to write to you to express my sincere appreciation for the exemplary way ESC performed our recent comprehensive energy project. From early-phase testing, energy consulting, value engineering and installation to completion, we knew we made the right choice in working with ESC.

It was refreshing to work with your team as their knowledge of the energy industry and attention to detail along every step of the way made this project go smoothly. We appreciate your prompt and continued communication throughout the project and will keep ESC in mind for future building needs.

Thank you,

Kenneth Madsen
Vice President Operations
