

12/27/19

I would like to thank Environmental Systems Corporation (ESC) for their outstanding work in completing LED lighting upgrades at 3 of our libraries at New Haven Free Public Library.

United Illuminating contributed a generous incentive of 35% toward the project cost and the upgrades will save the libraries \$47,000 annually in electric expenses and \$705,000 over the next 15 years. This will make a significant impact on our budget and allow us to invest more money in services to our patrons.

Special thanks to Patrick Burns, Daniela Johnson, the electricians and United Illuminating for completing the work in a short time frame and keeping the libraries orderly and functional during the process.

Great job!

Sincerely,

A handwritten signature in black ink that reads 'Jim O'Hair'. The signature is written in a cursive, flowing style.
